[illegible]

1. Total uncultivable area, net area sown, culturable waste other than fallow, and current fallows.

Note: (1)—The marked increase in uncultivable area and culturable waste from 1921-22 is due to the inclusion of statistics for the Sultan State and Kurram in Durian from that year.
 (2)—Total uncultivable area comprises area under forest and area not available for cultivation.

2. Total area under food crops, total area under non-food crops and total area of crops irrigated.

PREFATORY NOTE

THE total area of British Provinces (excluding Indian States) to which these tables relate is 667 million acres. Of the total area, 234 million acres represent uncultivable area comprising forests (89 million acres) and other area not available for cultivation (145 million acres), 151 million acres represent culturable waste other than fallow, and 47 million acres, the area left fallow during the year. The remainder, 293 million acres, was the net area actually sown with crops during the year. If areas sown more than once during the year be taken as separate areas for each crop, the total area sown in the year 1933-34 comes to 267 million acres, which is 7 million acres larger than that in the preceding year.

The total area irrigated amounted to 51 million acres, as against 50 million acres in the preceding year. Canals irrigated 27 million acres, wells 11 million acres, tanks 7 million acres, and other sources 6 million acres. Including the areas sown more than once, the gross area of irrigated crops comes to about 55 million acres, of which rice occupied 19 million, wheat 11 million, barley, jowar, bajra, and maize together 6 million, other cereals and pulses 6 million, sugarcane and other food crops 2 million acres each. Cotton occupied about 4 million and other non-food crops 5 million acres.

Food crops occupied 218 million acres of the total area sown (including areas sown more than once) and non-food crops 49 million acres. Rice represented 30 per cent of the total area sown, millets 11 per cent, wheat 10 per cent, oilseeds 7 per cent, gram 6 per cent, cotton 5 per cent, barley 3 per cent, maize 2 per cent and jute and sugarcane 1 per cent each. The notable increases were under wheat (+3 million acres chiefly in the Punjab, the United Provinces and Bombay), gram (+3 million acres chiefly in the Punjab), and cotton (+1 million acres chiefly in the Punjab, the United Provinces, the Central Provinces and Bihar and Madras) and jute (+0.6 million acres chiefly in Bengal). The only noticeable decrease was in the area under bajra (-1 million acres mainly in Bombay and Madras).

DEPARTMENT OF COMMERCIAL INTELLIGENCE
AND STATISTICS, INDIA,
Calcutta, March 30, 1937.

P. M. JOSHI,
Offg. Deputy Director (Statistics),
for Director-General.

Summary Tables of the Agricultural Statistics of British India.

(PROVISIONAL)

No. 1—GENERAL SUMMARY, 1933-34.

Classification of area		Area (1,000)
Area by professional survey		607,533
Area according to village potters		667,865
Area under forest		69,077
Area not available for cultivation		141,050
Culturable waste other than fallow		153,500
Fallow land		47,171
Net area sown		2,02,106
Irrigated area		60,500
Area under food crops		
Paddy		84,287
Wheat		27,590
Barley		6,721
Jowar		21,402
Bajra		12,150
Ragi		3,732
Millet		6,010
Gram		16,747
Other food grains and pulses		10,610
Total food grains		206,051
Sugar		3,364
Other food crops (a)		8,078
Total food crops		217,493
Area under non-food crops		
Linseed		2,067
Sesamum (oil or jinjh)		1,207
Rapo and mustard		3,322
Groundnut		5,040
Coconut		610
Castor		475
Other oil-seeds		1,171
Total oil-seeds		17,701

(a) Condiments and spices, fruits and vegetables, and miscellaneous food crops.

	Acrea (1,000)
